Candidates who should attend an interview via video conference have to submit to dottorato.ricerca@adm.unipi.it, no later than 2 September 2016 the form enclosed.

In this case, it is mandatory to also upload the enclosed letter. The letter must be duly signed by the Rector of a University or by the Director of a Department or by the responsible of an official Institution (e.g. embassy, consulate) and filled in any detail. In particular, the name and the contact must be provided of a professor or of a public officer who should be present during the exam and take care of its regularity.

**Guidelines for the Presentation of the PhD Research Project:** Required: No

**Info:**
The course in Veterinary Sciences aims to increase and improve the research ability in specific fields of Veterinary Medicine and Animal Production with a multidisciplinary. The program is also recommended for already graduated professionals with adequate training in the chemical and biological sciences. The aim of the researches will be to update and improve veterinary practice, animal production and animal welfare. The course will be focused in growing specialized and professional people in research fields. The PhD Student formation will be focus in development of their own new research projects in the field of veterinary science and animal production, as well as in integration in already existing work projects.
in public / private organization. The PhD Student will also develop a good attitude in work team and multidisciplinary studies. Moreover, abroad periods will be strongly encouraged for all PhD Student in order to improve their formation and knowledge of new languages and research and practical skills in scientific fields. The PhD course in Veterinary Sciences has joined the PHD plus program of the University of Pisa that aims to promote and encourage entrepreneurship and innovation among PhD and PhD students. The PhD Students will participate in a series of interactive and engaging seminars on business projects held by international experts on innovation and technology transfer.
