**PhD Programme:** Clinical and Translational Sciences

**President:** Prof. Amelio Dolfi

**Department:** Department of Ricerca traslazionale e delle nuove tecnologie in medicina e chirurgia

**Admission Requirements:** All

**Outcome of the Selection Procedure:** Ranking of candidates for the whole PhD programme

**PhD Positions Available**
- 9 with grant
- of which reserved to students who have graduated from a foreign universities: 1
- 3 without grant

**Details:**
- 7 grants financed by University of Pisa
- 1 grant financed by University of Pisa reserved for candidates educated abroad
- 1 grant financed by Fondazione Pisansa per la Scienza on subject: “Bio-molecular basis of human tumors: breast cancer and glioma”

**Selection Criteria:**

- Curriculum: The curriculum must be uploaded during the application process. The curriculum must provide information about the candidate’s academic education as well as his/her professional and research experience. Any other documents useful towards the assessment of the candidate’s curriculum should be attached. The candidate must enter the required information in the template available at [http://www.phdbiomedpisa.eu/cv-template](http://www.phdbiomedpisa.eu/cv-template).

- Grade: with a maximum grade of 30 points

- Interview: The interview assesses the candidate’s knowledge and curriculum. The candidate should show aptitude for research, openness to international academic experiences and an interest in scientific research. The interview will focus also, and especially, on the projects that the candidate intends to promote during the PhD course. During the interview, the candidate must be able to demonstrate the ability to use the English Language.

- Date 19th September 2016 Time: 9.00 (and following days but not on Saturday or Sunday)
- All candidates must be present on the first day of meetings to find out when the interview has been scheduled.

- Where: Scuola Medica, Via Roma 55 (aula Pacini)

- Minimum Grade: 40 out of 70

**Webconference:** NO

**Guidelines for the Presentation of the PhD Research Project**

Required: NO
| INFO: | The course has as its main objective the training of young researchers in the modern field of Biomedical Sciences, enabling them to acquire a solid scientific culture, to learn the necessary technologies, to get used to a multidisciplinary environment, to learn to communicate their own projects and the results of their own work. This objective is realized through the participation of students in research programs carried out in modern and well equipped laboratories. The course also offers an extensive educational program and formal opportunities for interaction between students and faculty. WEBSITE: [www.phdbiomed.unipi.it](http://www.phdbiomed.unipi.it) |
